

DVE Immersive Podium™

Appear Live in a Dozen Cities at the Same Time! The Ultimate Portable Telepresence Podium

The patented DVE Immersive Podium takes videoconferencing to a whole new level. This is far beyond common telepresence systems that use standard TV sets. The DVE Immersive Podium places the image of Speakers walking about over a wide area in the middle of the room. The image of the Speaker is fully interactive for natural conversation and can be seen by many audiences around the globe at the same time. The DVE Immersive Podium also displays compelling presentations with a wide area augmented reality transparent image plane. Presentations can include interacting live with 3D objects making them unforgettable. The DVE Immersive Podium is ideal for church satellite campuses, global live stage events, corporate sales meetings and all applications where a Speaker needs to offer stunning realism to captivate the audience.

- ▶ True Augmented Reality – Holographic 3D appearing Speakers
- ▶ Large transparent image area for increased realism
- ▶ Compelling volumetric 3D content with no glasses required by your audience
- ▶ Perfect eye contact when image originates from a DVE eye contact display
- ▶ Ideal for Teachers, Speakers, Pastors, Trainers, Entertainers, and corporate communications
